## Places

The natural history of Africa's wild places is explored in a variety of formats.

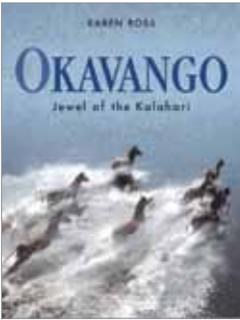

978 1 43170 117 9

### KIRSTENBOSCH: THE MOST BEAUTIFUL GARDEN IN AFRICA

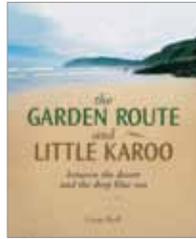

Kirstenbosch is a name that resonates the world over as the home of a uniquely rich flora in a setting of unsurpassed beauty. This publication tells the story of its establishment, its setbacks and triumphs, its benefactors and heroes. It outlines the Garden's scientific eminence – as the repository of our prized flora – and details the many attractions that make it a favourite destination for Capetonians and visitors alike.

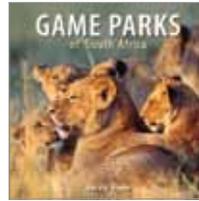

The history of Africa's most beautiful garden, lavishly portrayed in this classic edition

### KALAHARI SUMMER

Although for many visitors the Kalahari evokes images of winter game drives in a vast desert of thirsty red sands, it is the capricious summer landscape that has been luring painter and photographer Robert Grogan back to this region for more than 30 years. Gathered together for the first time in a vibrant collection, his landscape paintings and magnificent wildlife photographs bring the Kalahari's lush and beautiful summer season vividly to life.

## Mobile applications

A range of interactive apps for iOS, Android and Blackberry, featuring birds, trees, wildlife, mammals and snakes.

### NEWMAN'S BIRDS OF SOUTHERN AFRICA APP (iOS only)

The *Newman's birds of southern Africa* app is based on the popular birding guide of the same name, and features 975 bird species found from Zambia to the southern seas.

#### The app includes:

- Detailed descriptions, distribution maps and species status for all 975 species.
- Over 1300 labelled illustrations.
- More than 800 bird calls of different types (song, duet, alarm, mating calls and group calls).
- A dynamic search filter that helps the user identify birds based on GPS location, size, colour and region.
- Life List that securely stores information on date, location and comments for each sighting.
- Interactive cross-references to other species, allowing instant comparison with similar birds.
- Pop-up definitions of scientific and other terms.

“Opening the new Newman's app was like meeting Ken again – elegant, simple and shining with his wonderful art. The groupings make perfect and immediate sense, the page layout is instantly assimilated in a glance – this app now sets the ornithological standard and deserves a full 5-star rating.”

– Dave Pepler, Presenter of *Groen*, DSTV

### SASOL eBIRDS OF SOUTHERN AFRICA

Best-selling interactive app featuring images, distribution maps, over 950 species descriptions and calls for over 630 species.

### eTREES OF SOUTHERN AFRICA

Multi-feature app with more than 800 tree species, arranged in 43 logical groups based on easy-to-observe leaf and stem characteristics.

### eGUIDE TO MAMMALS OF SOUTHERN AFRICA

Accessible app with over 350 species accounts, distribution maps, spoor drawings, skull images and more.

### eSNAKES OF SOUTHERN AFRICA

Essential tool for people interested in southern African snake species, covering all 151 species indigenous to the region.

### WILDLIFE OF SOUTHERN AFRICA

An interactive version of the popular *Wildlife of Southern Africa* field guide, featuring more than 2 500 species and images of 1 600 species.

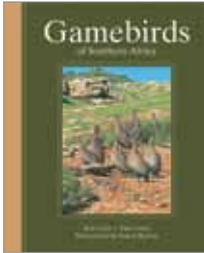

### EARTH & NATURE LIBRARY APP

A collection of popular and specialist natural history ebooks published by Struik Nature, housed in an application that's easily accessible and user-friendly.

# Birds

A wide range of bird books, other than field guides (see inside front cover), focuses on specific aspects of bird behaviour and birds in and of different places.

### **GEOLOGY OFF THE BEATEN TRACK – EXPLORING SOUTH AFRICA'S HIDDEN TREASURES**

*Geology off the beaten track* unpacks and interprets the geology along South Africa's regional and other less-travelled roads. Thirteen chapters present routes across the country with maps, GPS readings for key geosites, and clear text illuminated by vivid images and illustrations. A popular blend of geoscience and recreation.

978 1 43170 082 0

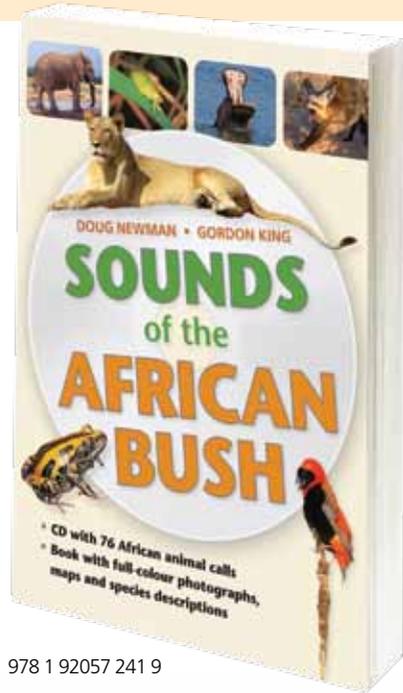

## General wildlife

The diversity of our wildlife heritage is showcased in a range of general wildlife titles.

### SOUNDS OF THE AFRICAN BUSH

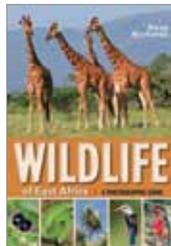

Animals are often heard before they are spotted, and this excellent CD and book helps identify 76 creatures (mammals, birds, amphibians and insects), based primarily on their calls. For each species there is a full-colour photograph, distribution map and brief text about its life history and behaviour. The CD features the calls of all these animals, and should enable easy identification.

**SOUTHERN AFRICAN MAMMALS MADE SIMPLE**

*Southern African mammals made simple* helps you rapidly distinguish between commonly confused mammals by applying a breakthrough methodology – a quick and easy three-step system. For each species there's a range map, colour illustration and photos, key ID pointers and a concise description. Readers will quickly learn to distinguish even the more challenging species, including antelope, mongooses, genets, primates and many more.

978 1 92057 238 9

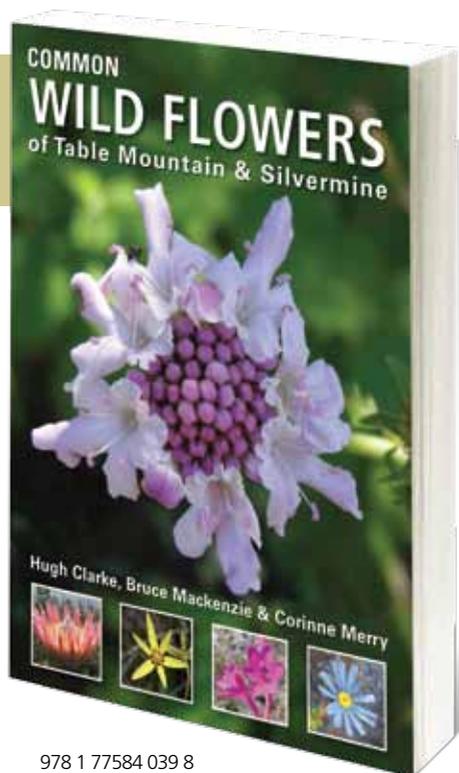

## Trees and plants

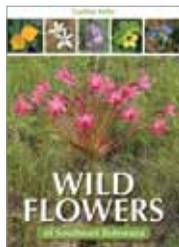

Broad coverage of trees, plant groups and wildflowers in a range of formats.

### COMMON WILD FLOWERS OF TABLE MOUNTAIN & SILVERMINE

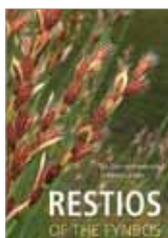

*Common wild flowers of Table Mountain & Silvermine* has proved to be a valuable guide for flower-lovers, hikers and mountain climbers who wish to know more about the flowers they encounter on their outings. Now expanded to take in the expansive Silvermine reserve, and generally updated for the entire area, this new edition will appeal to an even wider market.

# Astronomy

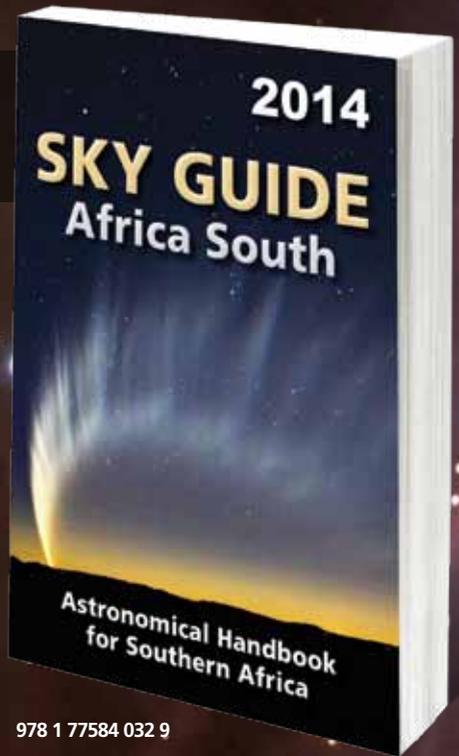

Star identification as well as an understanding of our universe are presented for general readership.

## SKY GUIDE AFRICA SOUTH 2014

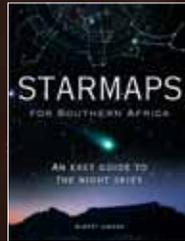

For novice, amateur and professional astronomers, *Sky Guide Africa South 2014* is a practical resource covering the upcoming year's planetary movements, predicted eclipses, meteor showers – any events and facets of the night sky that change annually – as well as star charts for identifying stars and constellations. There's a wealth of information about the Sun, Moon, planets, comets, meteors and bright stars, with photos, diagrams, charts and images. There's also an excellent list of useful websites.

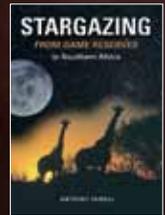

An annual publication, this is an invaluable resource and '... an absolute must for first-time star-gazers and professional astronomers alike.'

# Children

In addition to the series-style books (see pages 20–21), the children’s list is ever-growing, introducing African nature through a variety of lively, interesting and colourful titles.

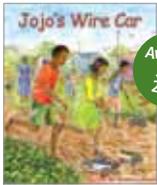

## CURLY THE CHAMELEON

A delightful story about the adventures of a garden chameleon, told in rhyming verse. Comes with a **full page of stickers** to encourage further engagement with the story. The playful images by Claire Norden stimulate the imagination and draw readers in. The text offers insight into the real-life traits and habits of the common dwarf chameleon.
